## Board of Trustees Select Final Interior Color Schemes

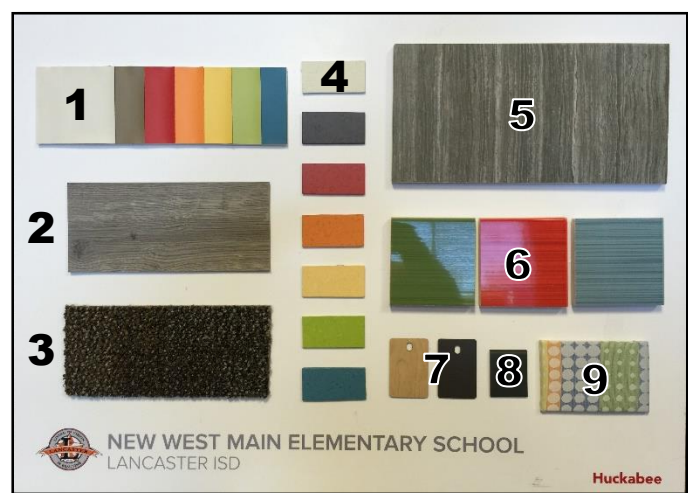

In November, the Lancaster ISD Board of Trustees met during a workshop to review interior color schemes for the two new elementary schools. The architects presented the Board of Trustees with options based on input from the Design Advisory Committee and open public forum.

Below are the approved interior color schemes for Pleasant Run and West Main.

### Pleasant Run Elementary:

### West Main Elementary:

### Key:

- 1 – Wall paint to be used throughout the building as either solid walls or accent borders
- 2 – Vinyl tile to be used in library
- 3 – Carpet to be used in front office and library
- 4 – Rubber floor tiles to be used throughout the building as either whole floor or accents in classrooms and common areas. This is the material of the main floors throughout the building
- 5 – Wall tile used along the hallways and the main tile used in restrooms
- 6 – Restroom accent tiles (boys = blue; girls = red; unisex = green)
- 7 – Counter tops, cabinets and doors. The lighter color will be used for internal doors, cabinets, learning stairs, and internal wood work. The darker color will be used for counter tops.
- 8 – Cover base which is the trim between the floor and wall
- 9 – Fabric accent

To see the internal color boards in person, you may visit the Service Center located at 1003 N. Dallas Ave.
