Weekly Bonding

Keeping YOU connected to Lancaster ISD Bond Updates

Friday, November 13, 2015

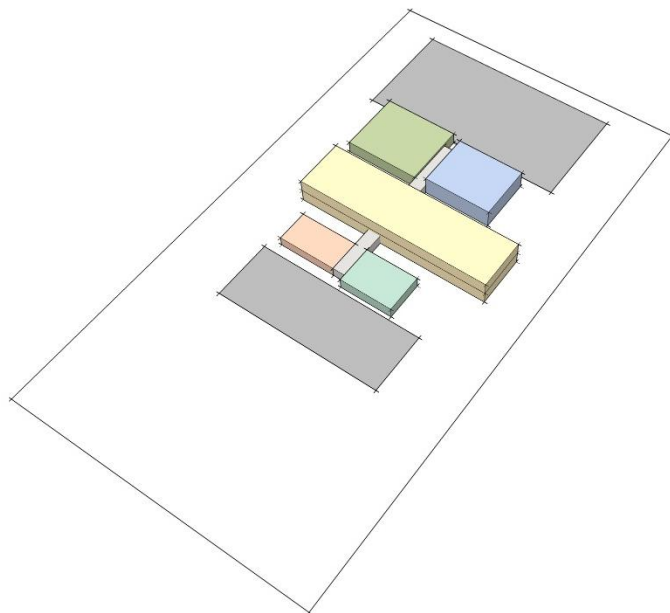

Conceptual Design Approved This Summer

To keep you informed about information related to bond, we are providing this weekly, internal newsletter. For the next couple of weeks, we are going to recap the past four months to bring you up to date.

Our Board of Trustees selected Huckabee Inc. as the architects for Lancaster ISD. This means that Huckabee is responsible for designing the new facilities. Each week, a team from Huckabee works closely with our Bond Program Manager and Chief Operations Officer to facilitate this process.

This past July, our architects developed three conceptual design options for the Pleasant Run and West Main Elementary campuses. On July 30, we held a Town Hall Meeting where community members provided input on the options.

The architects then took the input from our trustees, district staff and community and developed the conceptual design below which was approved at the August 17, 2015 Board Meeting.

Main Spaces

Administration

Academic Space

Library

Dining

Athletic Space

Circulation

Parking

As always, you may visit the Bond Construction Website at www.LancasterISDBond.org for information related to the 2015 Bond.

Next Week's Issue: Update on Schematic Designs
